- HTML, CSS
- TAILWIND CSS
- JAVASCRIPT
- REACT JS
- NODE JS
- EXPRESS JS
- MONGODB
- GIT, GITHUB
- MONGODB

CAREER OBJECTIVE

Enthusiastic and detail-oriented Frontend Developer with a strong foundation in React and Tailwind CSS. Skilled in building responsive and user-friendly web applications. Seeking an opportunity to contribute to a dynamic development team and grow as a frontend professional.

PROJECT

Car Sharing System

2024

Frontend Developer | React, Tailwind CSS, Context API

Contributed as a Frontend Developer to a web-based car sharing platform with distinct interfaces for users and admins

- Built a role-based UI: navbar for guests and sidebar for logged-in users/admins.
- Created modular components for booking, dashboard, and car owner profiles.
- Used Context API for global state and integrated frontend with REST APIs.
- Designed UI specifically for large screens with clean layout and styling.

Blog Website

2025

Full Stack | React, Nodejs, Express js, MongoDB

- Developed a secure full-stack blog platform with user registration, login, blog creation, and image upload features.
- Implemented JWT authentication, protected routes, and profile management with user-specific blog listing.
- Designed and styled a responsive UI using React (Vite) and Tailwind CSS.
- Built RESTful APIs using Express.js and MongoDB for scalable data management.

Experience

Software Engineer Intern

SOFTTRONIX SOFTWARE SERVICES PRIVATE LIMITED

1st November 2024 - 30th June 2025

- Worked as a MERN Stack Developer, building full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Designed and implemented responsive user interfaces with React and styled using Tailwind CSS/Bootstrap.
- Developed and integrated RESTful APIs, handling data operations and user authentication using JWT.
- Collaborated in a team environment using Git & GitHub
- Gained practical experience in deploying MERN applications and managing backend-frontend integration.
